Ms. Charney,

I represent Carrier Corporation. We have spoken periodically about the investigative work EPA is doing at the Lower Ley Creek Sub-site in Syracuse and you provided us earlier this year with a compact disc containing data from the November 2009 sampling event completed by EPA's contractor. I have a couple requests for information which I thought I would send to you directly. If you would like me to submit a formal FOIA request please let me know. Specifically, I would like to obtain the following additional documents/files:

- 1) The results of any additional Lower Ley Creek Sub-site sampling data which has been generated by or for EPA since the November 2009 field event (I seem to recall that some deeper sediment samples were collected but I do not believe we have ever seen the final results).
- 2) Electronic copies of the laboratory PCB chromatograms generated as part of the November 2009 sampling data and any subsequent PCB sampling events completed by or for EPA.

We will pay reasonable charges for obtaining/copying this information. Please feel free to contact me if you have any questions or need further clarification from me. Thank you for your help.

David
